

# MUSICAL ARTS INSTITUTE'S Ensemble Open Auditions

## *Chicago Contemporary* JAZZ IMPROV ENSEMBLE

The Musical Arts Institute of Chicago presents its Jazz Improv Ensemble. This group of young African American instrumental artists exists to exhibit excellence in Jazz (contemporary, funk, and straight ahead) music and to serve the community as a beacon of excellence and inspiration. Lead by Internationally known Billboard charting producer/bassist, Michael Manson, these young musicians also endeavor to expose their audiences to the beauty and artistry of jazz music composed by African Americans or composers of African descent. We are looking for Saxophones, Trumpets, Trombones, Pianists, and Guitarists.

The group rehearses twice monthly on Sundays 6:00 to 8:00pm.

They also perform in the community and every performance and rehearsal is a paid event. The ensemble averages 2 to 3 paid performances every month.

More importantly, students will be giving back to their community. As young people, most of which have never seen a saxophone, trumpet, or an ensemble up close especially one that "looks like them". In addition, if students are going to play in college (scholarship), this could be a valuable part of their resume and community service. To take advantage of this, Register Here.
